#### **ABSTRACT**

Ms Tramantza will make a presentation on her doctoral research, aiming in its initial stage to give a review of the existing Information Literacy (IL) theory and practice and the IL perceptions and needs of engineering students. This forms the start of a doctoral study: a comparative case study of two institutions in the UK and Greece. The purpose of the review is to present the current state of the art in IL in this population and accordingly inform research and educational strategies in this area.

**The seminar series is open to all members of *staff* and *students* of CITY and to any *externals* that wish to attend.**
